

ROOFING & CLADDING SYSTEMS RANGE

Marlon CST Heatguard

The optimum combination of daylight and heat reduction

Brett Martin brings a comprehensive range of roofing and cladding systems to the agricultural and equestrian markets, supported by a nationwide logistical operation and customer service team.

Marlon CST Heatguard

The optimum combination of daylight and heat reduction

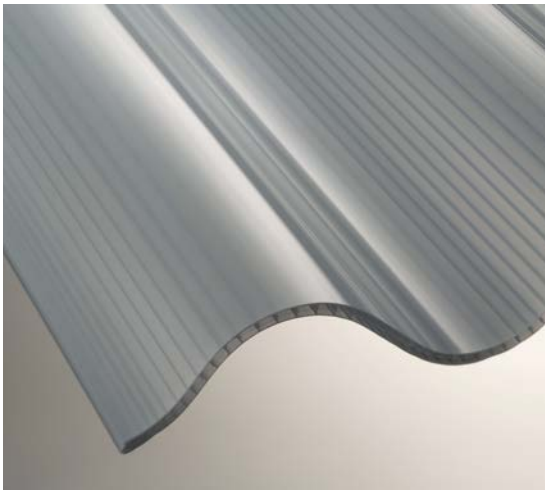

“ To me Marlon CST Heatguard is a game changer within livestock buildings. The cows are far happier and healthier, their hide is in great condition. Conception rates are better, milk yields are up and replacement rates have improved. ”

Marlon CST Heatguard

Corrugated 6mm Triplewall Polycarbonate

- Up to 36% light transmission
- Heat reflecting pigment reduces solar heat gain by up to 68%
- Light in weight - 8 times lighter than fibre cement sheets
- Choice of three pigment intensities to suit specification

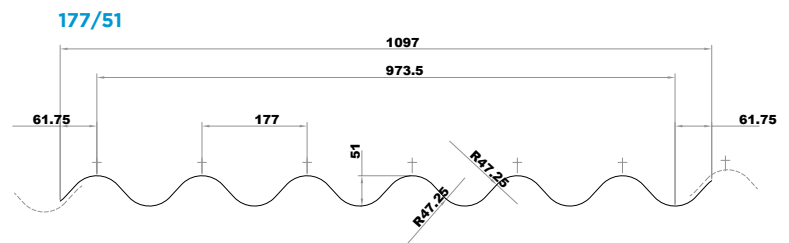

Marlon CST Heatguard has been developed with an advanced heat reflective pigment allowing high levels of natural daylight to be transmitted into buildings whilst significantly reducing heat transfer. The result is a bright building with a controlled and comfortable temperature internally which is beneficial to the wellbeing and productivity of animals.

insulation and rigidity. It can be used as a complete roof covering or wall cladding material or combined with fibre cement sheeting.

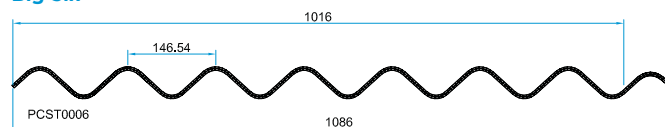

Marlon CST Heatguard is available in three pigment intensities to suit specification.

Marlon CST provides all the durability and impact resistance of corrugated polycarbonate sheet whilst the multiwall structure adds

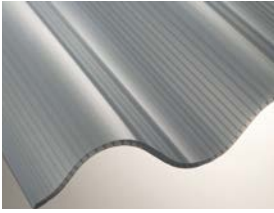

COLOUR	TRANSMISSION	
	LIGHT	SOLAR
HG100 (RG)	10%	10%
HG50 (EGWR)	20%	18%
HG25 (COQ)	36%	32%

Roofing & Cladding

**Marlon
CST Heatguard**

Heat Reflective Polycarbonate Rooflights

Provides high levels of natural light through the roof without the heat build up associated with transparent glazing.

**Marlon
CS**

Corrugated Polycarbonate Sheet

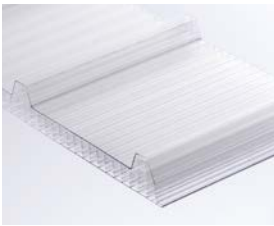

Known for its superior strength and high levels of glass-like optical clarity. Used as a complete roof covering or with corrugated metal roofing and cladding systems.

**Marlon
ST**

Multiwall Polycarbonate Sheet

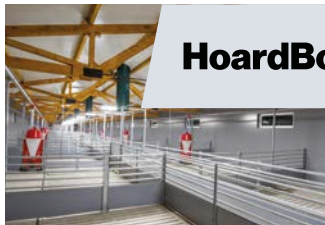

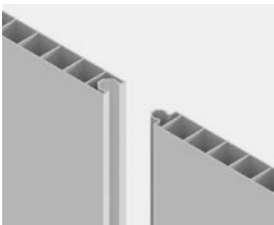

Provides thermal insulation in addition to the strength and durability of polycarbonate. Ideal for rooflights and vertical glazing.

**Marlon
Instalite E40**

Polycarbonate Industrial Rooflight

Thermally efficient extruded polycarbonate rooflights with a core thickness of 40mm seamlessly integrates with composite panel roofing systems in wide span metal frame buildings.

HoardBoard

PVC Wall Liner Click Panel

Impact resistant PVC wall panels that click together for easy installation. Smooth surface for easy cleaning is also moisture and mould resistant.

**Marvec
CS Agri**

Corrugated PVC Liner Sheet

A chemically resistant and durable interior cladding for walls and ceilings of agricultural buildings. Provides a smooth surface for ease of sanitary maintenance.

**Marvec
FS**

PVC Hygienic Cladding Sheet

An economical solid PVC sheet for cladding walls and ceilings of farm buildings. The satin finish provides a super tough and clinically clean finish. Accessories available.
